PREP THE SKIN

Step 1: Cleanse, tone and moisturize your face and neck. Hydrating the skin with moisturizer and/or primer prior to applying makeup will keep skin nourished and healthy.

FACE

Applying foundation is one of the most important steps in your makeup application. **Celebre Pro-HD Cream Foundation** provides an especially flawless base for the rest of your makeup. It is well suited for all skin types, because it moisturizes while adding luster.

Step 2: Lightly dab the **Celebre Pro-HD Cream Foundation** onto your face with the sponge provided or with a damp **Mehron Face Smoothie** sponge (as seen in image, product not included in kit). Start applying your foundation in the center of your face and blend out and downwards. For a flawless finish, be sure to blend the foundation especially well at the jaw and hairline.

Step 3: Finish your flawless face by loosely applying **Celebre Pro-HD Loose Mineral Finishing Powder** with a **Powder Puff** over your foundation to create a matte finish.

EYES

Step 4: Begin by applying **E.Y.E Powder** in Natural Wheat shade all over your eyelid with **Mehron's #320 Stageline Brush**. Continue by gently applying **E.Y.E Pencil** in Black into the lash line and smudging the eye liner with **Mehron's #320 Stageline Brush** to naturally define the lash line. Finally, apply Mehron's **Mascara** in black. The best way to apply mascara is bottom lashes first and then the top lashes. Give a few moments in between the top and bottom lashes to give mascara a chance to dry.

CHEEKS

Step 5: Lightly apply a small amount of **CHEEK Cream** in Geranium color on the apples of the cheeks with the index finger and blend into the skin.
