MAKEUP

Easy  
Step-by-Step  
Instructions

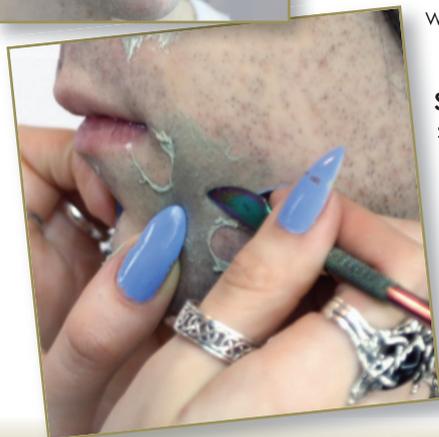

**Step 1** – Start with clean, dry skin. Begin by blocking brows with Extra Flesh, adding thick layers to create the look of a protruding brow. Next create a hollowed out eye effect by applying two worm like shapes underneath each eye and blend down as shown. Lay another small worm like shape across the nose. Seal all the Extra Flesh with Fixative “A” and allow to dry.

**Step 2** – Use wedge sponge to stipple Liquid Latex over all areas where Extra Flesh was placed. Next create small patches on the forehead and around mouth. Allow latex to dry completely and then tear small holes using tweezers or makeup spatula to create the appearance of rotting flesh.

Set all latex areas with Colorset Powder.

**Step 3** – Use the sponge to completely cover your face and neck with Cream Makeup in Zombie Flesh. Mix the Midnight Sky and Bloody Rose to color in the eyes and the tip of the nose. Using the

Brush and Bloody Rose makeup, fill in the holes torn into the Liquid Latex. Stipple Midnight Sky onto and around the lips. Dab Maize yellow and Bloody Rose around the face and neck to create a bruised, decaying skin effect. Using the Brush and the mixed Midnight Sky and Bloody Rose paint, create 3 smudges on the cheeks as shown to give a more hollowed out effect. Add White to highlight any protruding areas.

**Step 4** – Tease out hair to look disheveled.

*Artists Tip:* Rub a good amount of everyday conditioner throughout your hair leaving it in disarray.

**Step 5** – Use Stage Blood by dabbing small amounts onto any torn flesh areas and onto the tip of the nose. Take a swig (its edible!) and swoosh around your teeth allowing to drip out for a realistic brain hungry zombie!!

Patch test recommended. Remove with Mehron Makeup Remover followed by soap and water.
