**Easy
Step-by-Step
Instructions**

Step 1 – Start with a clean dry face. Put the black hood on before the makeup is applied and let it rest on the shoulders and neck.

Step 2 – Apply the white with a sponge applicator. Don't apply a heavy coat around the eyes, as this will be filled in with black and grey. Lightly press Mehron's Colorset Powder into the makeup using the powder puff. Dust off any excess.

Step 3 – Apply the black cream makeup with a sponge to the large areas, and use the black pencil liner to do the lines.

Step 4 – Use a sponge to blend the black into the white to soften the edges. You can also use the grey to blend in with the black to give a softer look. Lightly press Mehron's Colorset powder into the black areas. Be sure to rub enough powder on the puff and rotate the puff to keep it clean.

Step 5 – Use the black liner pencil to define the teeth. Blending away from the teeth to soften the edge. Lightly powder with Mehron's Colorset Powder the area around the mouth.

Step 6 – Draw on some stress cracks and apply makeup on the hands using Steps 2 & 3. Pull the hood over from the back and you are ready.
