Easy
Step-by-Step
Instructions

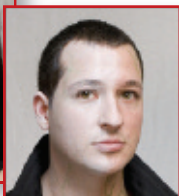

STEP 1 – Clean and dry the face.

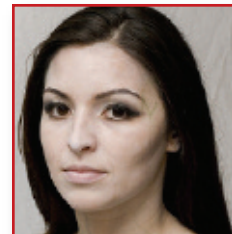

STEP 2 – Using Mehron's Green Pro-Pencil Slim, draw vein lines on the neck, chest area, arms (if exposed), and temples.

STEP 3 – Apply a thin, even coat of Mehron's Celebré Pro-HD Moonlight White makeup on face, lips, neck, chest and arms, covering over the veins.

STEP 4 – Apply Mehron's Black E.Y.E Cream with the sponge wedge to "hollow" and define the facial features by accentuating the cheek bone, jaw and temples.

STEP 5 - Female models: Create a shadowy eye effect with Mehron's Black E.Y.E Cream using your finger to apply on corners of eyelids. Smooth outwards. Using a brush, outline the eye and define eyebrows. Male models: Use the same technique, but apply a less shadowy effect on the eyelids.

STEP 6 - Female models: Using the brush, outline and color the lips with L.I.P Cream. Add Coagulated Blood on corner of lips and allow drips to fall a little to create blood drops. To enhance the look, create fang bite marks by drawing two small dots with Coagulated Blood on neck. Male models: Use only Coagulated Blood in the middle of top and bottom lips and allow drips to fall to create blood drops.

STEP 7 - Complete the look by applying black Hair Gel color and inserting the Vampire Teeth carefully into mouth.
