# Tattoo COVER™ & Tattoo COVERING™

Our rich, premium quality, high coverage cream makeup for masking even the darkest tattoos, birthmarks and skin discolorations.

PROFESSIONAL MAKEUP SINCE 1927

# Tattoo Cover™ and Tattoo Covering™ CoverRing™

Mehron's **Tattoo Cover™** cream makeup is waterproof and rub resistant when carefully applied and appropriately powdered. It is designed and formulated to provide intense coverage of even darkly pigmented tattoos and birthmarks.

Choose the **Tattoo Cover™** shade closest to your skin tone and apply with a sponge using a patting (stipple) motion. Set with **Colorset Powder™** then apply a cream makeup foundation that matches your natural complexion over **Tattoo Cover™** using the stipple technique. For a matte finish, apply a final dusting of **Colorset Powder™** and mist **Barrier Spray™** over the area to seal and protect.
